

Rules of the Court

Rev: 4/5/17

Leagues and King/Queen are assigned specific courts and time slots as shown by the shaded areas on the Court Schedule (the official reservation sheet). Court Rentals (Parties, Reservations, Hourly Rentals, etc.) have the next priority. League Make-ups and playing immediately after your league is free, but First Come – First Serve and will have to give up your court for higher priorities.

Priorities:

- 1. Assigned League or King/Queen court and time slot.**
- 2. Court Rentals (Parties, Reservations, Hourly Rental)**
- 3. *First Come-First Serve*: League Make-ups and that night's league members after their league.**

League and King/Queen players are welcome to continue playing immediately after their league on any available courts for free only on the night of their league. If you are not a League player or if your league is a different day, you must pay to play.

The ONLY way to reserve a court is by paying the hourly rental fee. The court is not reserved until money is in hand. The bar has the official reservation sheet.

League Make-up Games are at NO COST to the teams and may be played at any time a court is available – ask the VB Director for times courts are likely available. Court Rentals take precedence over League Make-up Games meaning League and King/Queen players must give up their court to Court Rentals outside of their time allotment and court assignment, even if they are making up or finishing games they couldn't complete during their time allotment.

Absolutely no alcohol to be brought in. Water bottles will be emptied before allowed in. Enforce your teammates because the **entire team will be banned** with no refund even if only one teammate found with alcohol.
